How to Get a real EXPERT create your PDF Interview Book In 14 Days

If you don't need an expert to do it, then you could follow the exact same formula I presented in the previous two videos and do it all by yourself.

Probably it will take you a few weeks, even a few months to finish everything yourself, and you could be committing yourself some big mistakes like not knowing what expert to interview, or what questions to ask.

If you want we work together, then you should **contact me right away**.

- I'm available for a time limited period only! And I only accept 3 clients because my time is limited as I run these interviews for my own products, which is more profitable as you already know...

I'm not even sure I'd offer this anytime soon. If I will, probably I'd charge \$800 for just one interview...

Why You Should Hire Codrut Turcanu and not somebody else

1. You don't have to hire me!

You could do it all by yourself, but like I've said – it will probably take you weeks, and even months to research a profitable niche, find the right experts, conduct the interviews and compile them into a hot-selling PDF product.

2. I'm the real-deal. My first 5 info products were interview type books... and just next week I'll come up with another one in the copywriting niche. In fact, I plan to dominate the entire Internet with dozen of interview type books in 2009 and beyond! So watch out...

Some of my previous interview books were AdSense Confessions, Niche Site Confessions, ClickBank Affiliate Confessions and Opt-In List Confessions... most of these products are not selling online anymore!

3. I can create an Interview PDF book in almost any niche market!

What Exactly You Get and How Fast

Ok, if you hire me, I ask only \$200 per interview.

- So five (5) niche expert interviews packed in a PDF book would mean **only \$1,000** (one-time, 100% money-back guarantee)

But WAIT! On the site there's a **special discount price** if you act right away! So you could get a PDF interview book for less than \$800 😊

My promise is simple:

I do all the research, e-mail all the experts and compile the five interviews myself into a nicely formatted PDF so you could put it up on a site or page and sell it for \$47 and even \$97.

If I don't deliver your book via e-mail in 14 days after your purchase, I'll refund all your money, but I get to keep the book. The risk is all on my shoulders.

What Exactly You Get and How Fast

The only requirement: I ask 50% upfront before I start working with/for you – is this a deal or what? And remember – you're one of the lucky 3 clients of mine... so contact me right away (you have all info on my site)

Will you get an eCover for your book?

No. That's an additional \$50. I can get my designer create one for you @ \$30.

Will you get a sales letter created to sell your product like the big dogs?

No. That's an additional \$1,000-\$3,000 depending on what exactly you want and need. I charge very low compared with other expert copywriters and my sales letters convert at least 1%, which is the average in the IM area.

Is there anything else I should know?

Yes. Without a sales letter you won't be able to sell your product, unless you're using eBay or e-mail marketing and just convince people to buy it without seeing a description of it... you could write the letter yourself though...
